One Story 2,634 sq.ft. **3** bdrm **2.5** bath

This modern ranch offers a spacious family room complete with large gliding patio doors and a charming side porch. The kitchen, open to the family room, features abundant cabinetry and a large island. The private owner's suite includes a spa-like bath with dual sinks, a soaking tub, shower, and generous walk-in closet. A built-in desk sits outside the suite across from the pantry, while two additional bedrooms located on the opposite side of the home share a Jack-and-Jill bath.

Outside, the bold exterior with board-and-batten siding and natural wood accents exudes refined sophistication and rustic charm, creating a warm and welcoming curb appeal.
